BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 72 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. The designs on three of the most common U. S. coins, the penny, nickel, and dime, have remained largely unchanged for over 50 years. The 50 State Quarters Program, involving a set of recurring designs commemorating each state, has been credited with generating renewed interest in the quarter by collectors and the public. A recent redesign of the new dollar coin has also increased the public's interest in collecting the coin, but it is not widely circulating. Concerned about the level of public interest in coins and the circulation of the dollar coin, Congress mandated a GAO review of U. S. coin design, with particular attention to increasing circulation of the dollar coin. GAO contracted with the Gallup Organization to survey a representative sample of U. S. adults to obtain public views on various coin design questions, including public preference for coin denominations, coin design features, the frequency of change in coin design, and ways to increase acceptance and use of the new dollar coin. This item ships from La Vergne, TN. Paperback.
