

## Exploring New Frontiers of Theoretical Informatics

Filesize: 2.74 MB

### ***Reviews***

*It in a single of the most popular ebook. Better then never, though i am quite late in start reading this one. You will not feel monotony at at any moment of your own time (that's what catalogs are for about when you request me).*

Book Condition: New. Publisher/Verlag: Springer, Berlin | IFIP 18th World Computer Congress TC1 3rd International Conference on Theoretical Computer Science (TCS2004) 22-27 August 2004 Toulouse, France | In recent years, IT application scenarios have evolved in very innovative ways. Highly distributed networks have now become a common platform for large-scale distributed programming, high bandwidth communications are inexpensive and widespread, and most of our work tools are equipped with processors enabling us to perform a multitude of tasks. In addition, mobile computing (referring specifically to wireless devices and, more broadly, to dynamically configured systems) has made it possible to exploit interaction in novel ways. To harness the flexibility and power of these rapidly evolving, interactive systems, there is need of radically new foundational ideas and principles; there is need to develop the theoretical foundations required to design these systems and to cope with the many complex issues involved in their construction; and there is need to develop effective principles for building and analyzing such systems. Reflecting the diverse and wide spectrum of topics and interests within the theoretical computer science community, *Exploring New Frontiers of Theoretical Informatics*, is presented in two distinct but interrelated tracks: Algorithms, Complexity and Models of Computation, -Logic, Semantics, Specification and Verification. *Exploring New Frontiers of Theoretical Informatics* contains 46 original and significant contributions addressing these foundational questions, as well as 4 papers by outstanding invited speakers. These papers were presented at the 3rd IFIP International Conference on Theoretical Computer Science (TCS 2004), which was held in conjunction with the 18th World Computer Congress in Toulouse, France in August 2004 and sponsored by the International Federation for Information Processing (IFIP). | Invited talks.- The tPI (tRNA Pairing Index) a Mathematical Measure of Repetition in a (Biological) Sequence.- Stability of Approximation in Discrete Optimization.- Towards a Broader Theory...
