GOOGLE BROWN - BOY DETECTIVE

Createspace, United States, 2014. Paperback. Book Condition: New. Alison Taylor (illustrator). 203 x 133 mm. Language: English . Brand New Book ***** Print on Demand *****.Geoffrey Brown was a boy like most fifth graders. He liked playing ball, reading comics, and riding his bike. There was one thing about Geoffrey though that made him different from all the other kids in his town of Thomasville. Geoffrey not only read lots of books, he remembered everything he read, saw, or heard. The kids at school soon found that they could ask him just about anything, and quicker than they could google it, he had the answer. Soon, all the kids started calling him Google. But Google had something else that made him special. He came to discover that he was good at solving crimes as well! Whether it was helping his grandpa solve a jewelery store robbery, catching a bike thief, or solving the mystery of a broken heart, his friends and family soon learned that he truly was a boy detective. Join Google as he solves ten mysteries, review the clues, and see if you too have the makings of a detective! Garry F. Taylor s children and preteen short mystery story collection, Google Brown - Boy Detective: Google Brown Mysteries, Volume 1 is filled with mysteries that just cry out to be solved before you turn the page. Some require a bit of knowledge, but others can be solved simply through a careful reading of the facts. I had so much fun solving, or attempting to solve, each of the mysteries contained in this collection. Google s explanations for his answers are fabulous even if you have already guessed correctly. Taylor s also done an excellent job of getting rid of gender stereotypes in Google Brown - Boy Detective....
