Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.The United States has been involved in combat operations for the past decade. Some of the darkest moments in those conflicts have come from the ethical failings of some of our service members. The Marine Corps prides itself on maintaining high ethical standards; however, we are not immune to these failings - as seen by the body desecration video and SS flag photos in Afghanistan. These failings have occurred during times of high operational tempo and have caused Marine Corps leadership, the public, and civilian leaders to question our ethical foundations and training. What can the Marine Corps do to create Marines who are ethical when it matters the most? Through integrated leadership and ethics education in the leadership continuum, the Marine Corps can create a resilient and ethical force better prepared for the moral dilemmas of combat operations, military service, and life after the military.
