

Post-Traumatic Stress Disorder and the Casual Link to Crime: A Looming National Tragedy

By Us Army Maj David L Daniel

Createspace Independent Publishing Platform, United States, 2012. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.Soldiers returning from service in the Global War on Terror may experience a high incidence of varying degrees of Post-traumatic Stress Disorder (PTSD). As such, the military leadership and society in general must, therefore, develop an in-depth understanding of PTSD and the effects that a high occurrence of this disorder in veterans and serving personnel will have on our society. The purpose of this paper is to investigate if there is a correlation between PTSD and criminal behavior in soldiers that have been incarcerated after returning from the GWOT and to determine the obligations of the U.S. government/DoD to prevent, treat, and/or mitigate the problem. This study includes data collected, examined and analyzed from three primary sources. First, an existing study on PTSD and criminal behavior by James J. Collins and Susan L. Bailey which examines the correlation between PTSD and criminal behavior primarily in 1140 nonveteran North Carolina inmates. This study is included to establish whether a general causal link exists between PTSD and an incidence of violent criminal behavior. Next, statistical data compiled...
